

出題の意図

微生物・植物・動物を対象とした、分子・細胞から個体・集団レベルの生命科学に関するテーマにおける専門知識と論理的思考とを問う。それらをもとに、小論文を書くための発想力と文章力とを問う。

The intent of the examination

We ask the applicant's specialized knowledge and logical thinking on topics related to life science at the molecular, cellular, organismal, and population levels, with a focus on microorganisms, plants, and animals. Based on this knowledge, we ask about their creative and writing abilities.
